

One Year On TROPICAL CYCLONE PAM

As of 31st January 2016 | vanuaturedcross.org

SITUATION SUMMARY

 **188,000**
people were affected (70% of Vanuatu's population)

 more than **13,000**
households lost their homes

 **22**
islands were affected

PROGRESS SO FAR

As of 31st January 2016

 **39,915**
people have been reached through Red Cross relief activities

 **5,168**
households have been reached with relief shelter materials, including shelter toolkits

 **16**
islands have been reached

AREAS OF OPERATION

COMMUNICATION WITH COMMUNITIES

146 Communities sampled with recovery assessments and baseline surveys

49 Communities sampled with beneficiary satisfaction surveys following relief distributions

SHELTER

Contributing to better sheltered communities

900

households have been reached with safe shelter awareness workshops and fixing kits made up of assorted nails and cyclone straps for reinforcement

LIVELIHOODS

Increasing access to livelihood development opportunities

31

young women from 7 communities in Efate (aged 15-19) have undertaken intensive training to help restore and diversify their opportunities for income generation in their respective communities.

AREAS OF FOCUS: RECOVERY PHASE

DISASTER PREPAREDNESS

Contributing to better disaster preparedness

4,000

people (800 households) have reached after being covered by pre-positioned stock in key geographical areas

WASH/HEALTH

Increasing access to safe water for the affected population

4,410

people have directly benefited from construction and rehabilitation of rainwater collection systems across 5 islands. During the relief phase approximately 43,000 Litres of fresh water were distributed. Some water repairs have been completed in schools, churches and health facilities and latrine trainings have also been completed in a number of communities. All work has been focused on the most vulnerable households.
